We generally have top line talking points at top, then background and then any potential Qs and As that may come up (usually just one or two)

Thanks again.

We couldn't quite understand it either. She has a general QA on lead in schools but the more specific on NJ is what I was thinking. If there is anything else more specific you think she should know that would be good too. Just the highlights though.

If I can get before 4:00 ET. That would be great.

Yes. I just got home and don't have my files with me. Can I get it to you Tomorrow and by What time do you need it by? I assume you want it on lead in Newark public schools

Do u want other nj lead issues ? I know congresswoman Bonnie Watson Coleman raised nj lead issues today but we couldn't quite follow what she was specific issue she was referencing.

Can you get me a one pager on NJ lead issues for her for tomorrow?

Sorry for the late notice.
